## PRODUCT LINE GUIDE

**BASOR.US**  
**844.393.3985**

Specializing in cable management for support, routing, and management of cables including cable tray, ladder, and system support products. Offering the latest features in splicing technology saving installation costs making it the fastest installed cable management system available today.

**HCA.HITACHI-CABLE.COM**  
**800.772.0116**

High performance cable products including UTP copper, indoor/outdoor fiber, SFTP copper, FUTP copper, and special application fiber. Compliance to all TIA and ISO cabling standards.

**OPTIXAMERICA.COM**  
**917.968.1519**

Innovative fiber optic products. Offering rugged patent pending re-spliceable and reusable connectors, along with tools and splicing accessories. Specializing in the telecom, datacom, premise wiring, FTTH, and CATV industries.

**SIGNAMAX.COM**  
**800.466.2377**

End to end connectivity and network solutions for commercial, industrial and military applications. High performance options from media converters to powerful 10 Gigabit switches.

**SOFTING.US**  
**865.251.5252**

Specializing in measurement equipment for testing, qualifying, certifying and documenting the performance of copper and fiber optic IT cabling based on global technological standards.

**TIITECH.COM**  
**888.844.4720**

Innovative fiber and copper solutions to meet the most demanding requirements and changing needs of the communications industry. Products for protection, connection, and testing include network interface devices, data distribution solutions, and the latest in fiber optics all engineered to ensure performance, safety, and reliability.
